## Learning Points

### The Past Continuous Tense

You use the Past Continuous tense to talk about something that was happening at a particular time in the past.

This is how you form the Past Continuous tense:

subject + was/were + verb-ing

I was cooking.

It was raining.

You often use the Past Continuous tense together with the Simple Past tense. The Past Continuous talks about a longer 'background' action. The Simple Past talks about a shorter event that happened in the middle of, or interrupted, the longer event.

You use the words **when** and **while** before the longer action.

#### Examples:

- *While we were eating, a rainbow appeared over the horizon.*
- *When we got home, it was raining.*

## Learning Points

### Comparative and Superlative Adjectives

We use comparatives to compare people and things with other people and things. Comparative adjectives are forms like *taller*, *more attractive*. You use **than** after comparatives .

We use superlatives to compare people and things with all of the group that they are in. Superlative adjectives are forms like *the tallest*, *the most attractive*. You add **the** in front of the superlative form to describe people, places and things.

Look at the chart for information on how to form the comparative and superlative:

| Adjective   | Comparative                   | Superlative           | Form                                                                          |
